Announcements

Funding Opportunities for COVID-19 research
The Office of the Vice President for Research and Innovation has a research limitation to ensure that only research related to COVID-19 will be considered.

National Institutes of Health

The National Institutes of Health (NIH) offers numerous funding opportunities, including grants, fellowships, and training programs in various fields of scientific research. For more information about these opportunities, please visit the NIH website.

The Department of Defense (DOD)

The Department of Defense (DOD) provides funding opportunities for researchers working in the fields of defense and national security. These opportunities include grants, fellowships, and training programs that aim to support research and innovation in areas such as cybersecurity, intelligence, and national security.

Limited/Internally Coordinated Submissions

National Science Foundation

Limited/Internally Coordinated Submissions: These opportunities are only available to select institutions and are not open to the general public. The Limited/Internally Coordinated Submissions are specifically designed for the University of Oregon (UO) and are intended for researchers and institutions that meet specific criteria.

Awards

Graduate and Postdoctoral Grants

The Office of the Vice President for Research and Innovation at the University of Oregon has announced a series of graduate and postdoctoral grants to support research and mentoring activities. These grants are available to UO faculty, graduate students, and postdoctoral fellows.

Honors and Awards

Material Research Society

The Material Research Society (MRS) is seeking nominations for its Impact Award. This award recognizes outstanding contributions to the field of materials science.

National Institutes of Health

The National Institutes of Health (NIH) has announced a new grant program that will support research projects related to COVID-19. This program will provide funding for projects that aim to develop new treatments, vaccines, and diagnostic tools for COVID-19.

Curated Pivot Searches

Pivot is a funding opportunities database of available external funding opportunities from federal agencies, state and local government agencies, private foundations, and corporations. You can search Pivot using your institutional login.

Are you trying to secure funding for your research? We can help.
