Announcements

Funding Opportunities for CODIS-IIR Researchers

The University of Oregon's CODIS-IIR is seeking proposals to conduct research on the impacts of the invasive red fire ant in the urban landscape and the urban ecosystems services provided by natural and semi-natural urban green spaces. More information is available on the website.

Oceana Sea Race BPT 2020 State of the Ocean

The State of the Ocean is a biennial report to inform policymakers, advocates, and the public about the status of the world's marine ecosystems. The 2020 Oceana State of the Ocean report features updates on the status of key indicators of marine health, including changes in ocean temperatures, acidity, and sea level rise, as well as the impacts of overfishing, habitat loss, and climate change on marine species. More information is available on the website.

Internal Funding Opportunities

Limited/Internally Coordinated Submissions

Diversity and Office Minority Fellows

The Office of Diversity and Community Engagement is seeking proposals for the Diversity and Office Minority Fellows program. This program provides funding to support research projects led by underrepresented minority faculty members. More information is available on the website.
