Announcements

Johnson & Johnson WiSTEM2D Scholars Award Program

In the July 18 Funding Opportunities newsletter, we solicited notices of intent for the [WiSTEM2D Scholars Award Program](#) with a deadline for today, August 1, in anticipation of their typical fall deadline. However, we just received word yesterday that Johnson & Johnson is restructuring the program and will not be opening the application portal this year. As such, we are cancelling our call for notices of intent and will provide an update once the funder announces plans (expected in 2024).

Mellon Foundation New Directions Fellowships

The Andrew W. Mellon Foundation's [New Directions Program](#) provides 15-month fellowships to faculty members in the humanities and humanistic social sciences who seek to acquire systematic training outside their own areas of special interest in order to undertake interdisciplinary research. Eligible candidates will be faculty members who were awarded a doctorate within the last six to twelve years (2011 to 2017) and whose research interests call for formal training in a discipline other than the one in which they are experts. Since this is a limited submission competition, the UO may only submit one faculty proposal to the foundation. Interested applicants need to submit a one-page [preproposal](#), by **August 27, 2023, by 5:00 p.m.**, for internal review and selection. The application deadline is **November 4, 2023**. Faculty interested in applying to this program should contact [Foundation Relations](#).
