Unit Head Support Form for the NIH Academy Training Program

The Office of the Vice President of Research and Innovation (OVPRI) seeks to boost the success of UO early-career researchers applying to the NIH through targeted support and training through our NIH Academy. The training will consist of seven, half-day, in-person workshop sessions, as well as follow-up assignments and reviews outside of scheduled training sessions.

Applicant Name:

Unit Head Name:

Research Readiness

Participants in the Academy should be at a stage of their research where an application submission to NIH in June (after completion of the Academy during the academic year) would be competitive.

Mandatory Participation

Faculty must fully participate in the program (attend all workshops, complete homework, and submit a NIH grant application at the end of the Academy)

By signing this form, you are committing to supporting the faculty member's participation in the NIH Academy.
