Funding Opportunities Newsletter – New Delivery Mechanism

Starting in January 2025, the Funding Opportunities Newsletter will move to a new delivery system, Mailchimp, to align all of our OVPRI newsletters on one platform. All tenure-related faculty, career research faculty, unit grant administrators, and graduate students will *automatically be subscribed under the new system*. Others currently receiving the newsletter will need to resubscribe via the [Funding Opportunities webpage](#) **before the end of the year** to continue to get the newsletter in 2025.

Faculty Research Awards

The Office of the Vice President for Research and Innovation (OVPRI) announces the 2025 Faculty Research Award competition. This program provides eligible tenure-track and career research faculty with up to \$10,000 in support for expenses related to research, scholarship, and creative projects. Faculty may request summer stipends of up to \$7,000. This program aims to provide funding to faculty who do not currently have a significant active externally funded research award (i.e., a major independent, investigator-initiated award for their discipline, such as NIH R01, NEH Fellowship, IES research grant, etc.). The deadline for applications is **January 21, 2025**. More details about the program and the request for proposals can be found on the [OVPRI's Faculty Research Awards webpage](#).

No Newsletter Next Week

Research Development Services wishes everyone a restful Thanksgiving holiday next week. The newsletter will resume on December 3, 2024.
