Students conducting research are eligible to act as Principal Investigator only when they are under the oversight of a Faculty Advisor (tenure related and non-tenure track faculty) meeting the qualifications of a Principal Investigator. Principal Investigator Eligibility guidance can be found on our website.

- By confirming the ancillary review, the Faculty Advisor attests that he/she has reviewed the protocol and agrees to provide appropriate education, oversight, and supervision of the student investigator, and share the responsibilities as outlined in the Principal Investigator and Faculty Advisor Responsibilities.
- The student PI must list the faculty advisor as a research team member on the Local Study Team Members smart form in the Research Administration Portal (RAP). The student PI must also assign to the faculty advisor the role of PI Proxy.
- The faculty advisor must have current human subject training (CITI).

Follow the instructions below to confirm your approval of your student’s project. The faculty advisor must complete an ancillary review before RCS will process the application.
