Pivot Funding Opportunities Database

UO subscribes to Pivot, a searchable database of thousands of funding opportunities supporting research and other activities around the globe. Pivot's advantages include:

- A saved search feature results in a single weekly email sent to you featuring all the new opportunities that match the search parameters.
- A tracking feature that allows for confirmations to be sent to your email inbox when an opportunity's anticipated deadline is confirmed.
- The ability to search by activity location, applicant citizenship, applicant educational/career status, keywords, and more.
- A list of ~75 internal grants at UO.

Research Development Services (RDS) provides personalized training on how to use Pivot to UO faculty, staff, and graduate students. Please contact [RDS](#) to schedule a training session.
