## Announcements

### Internal Funding for Translational Research Projects

UO's [VPRI Innovation Fund Translational Research Grant \(TRG\)](#) provides funding for faculty doing translational research. TRG funding must be used to enhance the probability that pre-existing research discoveries will be transformed into new products, services, and companies that contribute to the Oregon economy, and awardees are expected to pursue additional funding with UO assistance to accelerate the impact of their research. **Application deadlines are rolling.**

### National Science Foundation Major Research Instrumentation

NSF's [Major Research Instrumentation \(MRI\)](#) program provides funding for the acquisition and development of scientific research equipment. As a [limited submission](#) opportunity, UO may submit no more than two Track 1 proposals, and no more than one Track 2 proposal. **Anyone may submit a [preproposal](#) to be considered for the internal competition. However, to ensure the best use of your time and effort in developing a pre-proposal, we highly recommend setting up a meeting with [Kate Petcosky-Kulkarni](#), Director of Strategic Research Initiatives, to go over your proposed project and alignment with institutional priorities prior to submission.** Preproposals are due by **October 25, 2021**; the NSF application deadline is **January 19, 2022**.

### National Science Foundation - Fall 2021 Virtual Grants Conference

NSF will be hosting the [Virtual Grants Conference](#) designed to give new faculty, researchers, and administrators key insights into a wide range of current issues at NSF. NSF program officers will be providing up-to-date information about specific funding opportunities and answering attendee questions. The conference runs from **October 4 - October 8, 2021** and [registration](#) is required.
