Announcements

Funding Research Program

We are pleased to announce that the funding research program for the University of Oregon (UO) has received $300,000 in grants from the National Science Foundation (NSF) for the first time in 2022. The grants will support a range of research projects in the natural sciences, including studies on climate change, biodiversity, and ecosystem health. For more information, please visit our website.

Musculoskeletal Instrumentation Program

The Musculoskeletal Instrumentation Program (MIP) at the University of Oregon has received a $1 million grant from the National Institutes of Health (NIH) to support research on musculoskeletal disorders. The funds will be used to support research projects that aim to improve the diagnosis and treatment of musculoskeletal disorders, including osteoporosis and arthritis. For more information, please visit our website.

Internal Funding Opportunities

Office of the Vice President for Research and Innovation

Listed below are several internal funding opportunities available to UO faculty, staff, and students. These opportunities are open to all disciplines and are accessible to all UO departments and units. For more information, please visit our website.

Diversity, Equity, and Inclusion Opportunities
