Department of Defense - Iowa State University

Program of Predoctoral Training in Autonomic Neuroscience for Undergraduates

The Department of Anesthesiology at Iowa State University invites applications for a program of predoctoral training in autonomic neuroscience for undergraduates. This program is designed to provide an opportunity for highly motivated undergraduate students to gain research experience in the field of autonomic neuroscience. To learn more about the program, please visit the Department of Anesthesiology's website.

M.J. Bonnstadt Endowed Trust

The M.J. Bonnstadt Endowed Trust offers grants to researchers and educators working in the field of nuclear medicine. The grants are intended to support innovative research projects and educational programs. To be considered for a grant, applicants must submit a proposal that demonstrates the potential for impact and originality.

State Science Foundation

The State Science Foundation is committed to supporting the advancement of science and technology in the state of Iowa. They offer grants and fellowships to support research, education, and workforce development programs. To learn more about the State Science Foundation and its available opportunities, please visit their website.

National Institutes of Health

Limited/Internally Coordinated Submissions

This is a limited submission opportunity where the UO is allowed to submit only one proposal. To be considered, please submit the Notice of Intent to Submit by the internal deadline.

Basic Instrumentation Grant (BIG)

National Institutes of Health

Limited/Internally Coordinated Submissions

This is a limited submission opportunity where the UO is allowed to submit only one proposal. To be considered, please submit the Notice of Intent to Submit by the internal deadline.

Lending Library (DURIP-LL)

Department of Defense - Air Force Office of Scientific Research

Announcements

The Department of Defense has announced the DURIP-LL program. This program seeks proposals from universities to create, market, and implement a lending library program using DURIP-funded instrumentation. A central purpose of the DURIP-LL program is to provide hands-on research-related education in areas of interest and priority to the DoD. Therefore, your proposal must address the impact of the equipment or instrumentation on your research-related education. In addition, your proposal must demonstrate the necessity of the equipment or instrumentation. If your proposal is being considered for ANY of these opportunities, please submit the Notice of Intent to Submit by the internal deadline.

Curated Pivot Searches

Funding opportunities database of available external funding opportunities from Federal, non-federal, and international sponsors across all disciplines and is accessible to UO researchers using your Shibboleth login.

Are you trying to secure funding for your research? We can help.

Pivot is a funding opportunities database of available external funding opportunities from Federal, non-federal, and international sponsors across all disciplines. It provides access to opportunities and allows you to save searches and alerts for on-going searches, and identify collaborators.

Visit our Getting Started with Pivot page to learn more about using the powerful online funding database tool.
