## Announcements

### Board on Environmental Change and Society Call for Nominations

The National Academies of Sciences, Engineering, and Medicine is seeking nominations for individuals to serve on the Board on Environmental Change and Society (BECS). BECS mobilizes social and behavioral sciences to identify equitable and effective solutions to the challenges at the intersection of environmental change and society. Board members meet semi-annually and interact frequently in small ad hoc groups to provide oversight to scientific consensus studies, workshops, and other activities around a number of critical concerns for policy, including research, planning, and decision-making. The nomination deadline is **February 20, 2022**. Please reach out to Research Development Services if you would like assistance in preparing nomination materials.

### National Endowment for the Humanities Resources / Call for Reviewers

UO, along with other Oregon institutions of higher education, recently hosted a webinar featuring National Endowment for the Humanities (NEH) program officers who presented on applying to the Division of Research Programs. This office oversees grant competitions for Fellowships, Summer Stipends, Collaborative Research, Scholarly Editions and Translations, and more. A recording of the presentation along with supporting documents are available on the OVPRI webpage on Arts and Humanities Grant Writing Resources. The NEH also seeks qualified individuals to serve on its review panels, a process that can help faculty understand how to be competitive for future proposal submissions. You may submit your name for consideration via an online form. Faculty interested in serving on the Fellowships Program review panel specifically should contact Claudia Kinkela.
