Announcements

**Diversity in the News: How to Be a Shadow of Excellence**

This month’s diversity news highlights projects that are raising awareness of diversity and inclusivity in higher education across the nation. This month’s news includes:

- **National Science Foundation (NSF) Diversity, Equity, & Inclusion Efforts**: A prominent initiative that seeks to increase diversity in STEM fields by providing resources and support for underrepresented groups.

**Featured External Opportunities**

- **Mathematical Sciences**: NSF’s initiative to support research and education in mathematics and its applications.

**Diversity, Equity, and Inclusion Opportunities**

- **NSF’s Early CAREER Grants**: A highly prestigious Foundation-wide competition for junior faculty who wish to become role models for diversity and inclusion in the research enterprise.

**Focused External Opportunities**

**Department of Justice**

- **Forced Migration**: Grants for research on forced migration and related issues.

**Internal vs. Externally Coordinated Submissions**

- **Limited Submissions**: These are opportunities that are limited in scope and are only available to a select group of researchers.

**Diversity External Opportunities**

- **Graduate and Postdoctoral Grants**: Fellowship opportunities for graduate and postdoctoral researchers.

**Highlighted Funding Opportunities**

- **Fellowships (CSGrad4US)**: A fellowship opportunity for computer science graduate students.

**Highlighted Research Development News**

- **Research Development & Grant Writing News**

**Highlighted Grants.gov Opportunities**

- **Grants.gov Deadline: April 26, 2022**: Funding opportunities from the National Endowment for the Humanities.

**Highlighted Virtual Town Hall**

- **Virtual Town Hall: April 1, 2022**: A town hall event focused on diversity, equity, and inclusion in research.

**Highlighted Calls for Proposals**

- **STEM Faculty**: Calls for proposals for grants that support STEM faculty.

**Highlighted Competitions**

- **The Pathway from An NSF EAGER to Understanding the “Strengthening American Competitions”**: A competition for proposals that aim to strengthen American competitiveness in STEM fields.

**Highlighted Workshop**

- **An Overview of Early Career and Research Initiation Grants for STEM Faculty**: A workshop for junior faculty to learn about early career grants.

**Highlighted Project**

- **Skilled Future Technical Workforce**: A project focused on training the next generation of skilled workers in STEM fields.

**Highlighted Resources**

- **Academic Research Funding Strategies, LLC**: A resource for academic researchers to learn about research funding strategies.

**Highlighted Institution**

- **University of Oregon**: News and updates from the University of Oregon.

**Highlighted Graduate and Postdoc Programs**

- **Doctoral and Postdoctoral Programs**: Opportunities for graduate and postdoctoral study in STEM fields.

**Highlighted Institutions**

- **University of Oregon**: News and updates from the University of Oregon.

**Highlighted Information**

- **Office of the Vice President for Research and Innovation**: News and updates from the Office of the Vice President for Research and Innovation.

**Highlighted Newsletters**

- **Office of Research News**: Newsletters from the Office of Research.

**Highlighted Printables**

- **Research Development Services**: Printables and resources for research development.

**Highlighted Contact Information**

- **rds@uoregon.edu**: Contact information for Research Development Services.

**Highlighted Support**

- **Research Development & Grant Writing**: Support and resources for researchers.

**Highlighted Programs**

- **NSF’s Early CAREER Grants**: A program for junior faculty to support early-career research.

**Highlighted Funding Opportunities**

- **Virtual Town Hall: April 1, 2022**: A town hall event focused on research development.

**Highlighted Updates**

- **March Edition**: Updates from the Research Development & Grant Writing News.

**Highlighted Resources**

- **Academic Research Funding Strategies, LLC**: Resources for academic researchers.

**Highlighted Funding**

- **University of Oregon**: Funding opportunities from the University of Oregon.

**Highlighted Grants.gov Opportunities**

- **Grants.gov Deadline: April 26, 2022**: Funding opportunities from the National Endowment for the Humanities.

**Highlighted Calls for Proposals**

- **STEM Faculty**: Calls for proposals for grants that support STEM faculty.

**Highlighted Competitions**

- **The Pathway from An NSF EAGER to Understanding the “Strengthening American Competitions”**: A competition for proposals that aim to strengthen American competitiveness in STEM fields.

**Highlighted Workshop**

- **An Overview of Early Career and Research Initiation Grants for STEM Faculty**: A workshop for junior faculty to learn about early career grants.

**Highlighted Project**

- **Skilled Future Technical Workforce**: A project focused on training the next generation of skilled workers in STEM fields.

**Highlighted Resources**

- **Academic Research Funding Strategies, LLC**: A resource for academic researchers to learn about research funding strategies.

**Highlighted Institution**

- **University of Oregon**: News and updates from the University of Oregon.

**Highlighted Graduate and Postdoc Programs**

- **Doctoral and Postdoctoral Programs**: Opportunities for graduate and postdoctoral study in STEM fields.

**Highlighted Institutions**

- **University of Oregon**: News and updates from the University of Oregon.

**Highlighted Information**

- **Office of the Vice President for Research and Innovation**: News and updates from the Office of the Vice President for Research and Innovation.

**Highlighted Newsletters**

- **Office of Research News**: Newsletters from the Office of Research.

**Highlighted Printables**

- **Research Development Services**: Printables and resources for research development.

**Highlighted Contact Information**

- **rds@uoregon.edu**: Contact information for Research Development Services.

**Highlighted Support**

- **Research Development & Grant Writing**: Support and resources for researchers.

**Highlighted Programs**

- **NSF’s Early CAREER Grants**: A program for junior faculty to support early-career research.

**Highlighted Funding Opportunities**

- **Virtual Town Hall: April 1, 2022**: A town hall event focused on research development.

**Highlighted Resources**

- **Academic Research Funding Strategies, LLC**: Resources for academic researchers.

**Highlighted Funding**

- **University of Oregon**: Funding opportunities from the University of Oregon.

**Highlighted Grants.gov Opportunities**

- **Grants.gov Deadline: April 26, 2022**: Funding opportunities from the National Endowment for the Humanities.

**Highlighted Calls for Proposals**

- **STEM Faculty**: Calls for proposals for grants that support STEM faculty.

**Highlighted Competitions**

- **The Pathway from An NSF EAGER to Understanding the “Strengthening American Competitions”**: A competition for proposals that aim to strengthen American competitiveness in STEM fields.

**Highlighted Workshop**

- **An Overview of Early Career and Research Initiation Grants for STEM Faculty**: A workshop for junior faculty to learn about early career grants.

**Highlighted Project**

- **Skilled Future Technical Workforce**: A project focused on training the next generation of skilled workers in STEM fields.

**Highlighted Resources**

- **Academic Research Funding Strategies, LLC**: A resource for academic researchers to learn about research funding strategies.

**Highlighted Institution**

- **University of Oregon**: News and updates from the University of Oregon.

**Highlighted Graduate and Postdoc Programs**

- **Doctoral and Postdoctoral Programs**: Opportunities for graduate and postdoctoral study in STEM fields.
