National Endowment for the Humanities Summer Stipends Webinar

The National Endowment for the Humanities (NEH) is holding a webinar on May 11 at 12:00 p.m. EDT to introduce its Summer Stipends program, which provides funds for projects that enable faculty members, student scholars, and other independent scholars to work full-time for six months without financial constraints on location or field. The webinar will provide an overview of the NEH Summer Stipends program, including eligibility criteria, application requirements, and the review process. The webinar is open to the public and can be accessed online. For more information, please visit the NEH website or contact RDS at 541-346-8308.

New CAREER Submissions and Multiple Webinars

The National Science Foundation (NSF) has issued a new solicitation for the Faculty Early Career Development Program (CAREER). The deadline for the solicitation this year is April 27, 2022. The National Science Foundation (NSF) is holding multiple webinars to provide information about the CAREER program. The webinars are open to applicants to the Directorate of Education and Human Resources (EHR) and the Directorate for Geosciences (GEO). For more information, please visit the NSF website or contact RDS at 541-346-8308.

Limited Internally Coordinated Submissions

Department of Energy

The Department of Energy (DOE) has issued a new solicitation for the Office of Science Early Career Research Development Program (ORPD). The deadline for the solicitation this year is April 1, 2022. The DOE is holding a webinar to provide information about the solicitation. The webinar is open to applicants to the Office of Science. For more information, please visit the DOE website or contact RDS at 541-346-8308.

Diversity, Equity and Inclusion Opportunities

Feature External Opportunities

Alfred P. Sloan Foundation

The Alfred P. Sloan Foundation is a private foundation that provides funding for research, education, and public understanding of science and technology. The foundation is committed to increasing the number of scientists, engineers, and technicians in the United States who have the skills needed to compete in the global economy. The Sloan Foundation is interested in supporting projects that promote diversity, equity, and inclusion in STEM fields. For more information, please visit the Sloan Foundation website or contact RDS at 541-346-8308.

Curated Pivot Searches

The Pivot database provides a comprehensive list of available external funding opportunities from a variety of sources, including federal, non-federal, and international sponsors across all disciplines and is accessible to all TTF faculty, NTTF research faculty, and graduate students at the University of Oregon automatically. Renewed search alerts for on-going searches, and identify collaborators. Visit our Getting Started with Pivot page to learn more about using the powerful online funding database tool.

Are you trying to secure funding for your research? We can help.

We understand that securing funding for research projects can be challenging. That's why we're here to help. To assist researchers interested in submitting proposals to NSF, we've compiled a list of key sources of information that can be accessed online. For more information, please visit the NSF website or contact RDS at 541-346-8308.

Office of the Vice President for Research and Innovation

The Office of the Vice President for Research and Innovation (OVPI) is a resource for faculty members interested in submitting proposals to NSF. The Office provides support and guidance in the proposal submission process and can offer assistance with budget preparation, technical writing, and other aspects of proposal development. For more information, please visit the OVPI website or contact RDS at 541-346-8308.

First-Generation Research network

The First-Generation Research network is a community of researchers who identify as first-generation students. The network provides support and resources to researchers who have faced unique challenges in their academic careers. The network is an opportunity for researchers to connect with others who share similar experiences and to receive guidance and support in all aspects of their research careers. For more information, please visit the First-Generation Research network website or contact RDS at 541-346-8308.
