Announcements

National Science Foundation Regional Innovation Announcement
The Office of the Vice President for Research and Innovation is now soliciting pre-proposals for the National Science Foundation’s Regional Innovation Engines program. The goal of the Engines program is to support cross-institutional, cross-disciplinary teams of researchers that develop and test new solutions for the larger regional opportunity. Proposers may develop and test novel models and ways to build and sustain innovative regional ecosystems. Proposers may also combine novel methods and practices to develop and test prototypes of new processes/products or test feasibility from virtual or real use cases. Proposals must be submitted by May 31, 2022. For more information, please visit the Research Development Services website.
