Announcements

Search for Funding Opportunities in the Pivot Database

The UO is a subscriber to Pivot, a web-based directory of thousands of research funding opportunities from federal, non-federal, and international sponsors. Pivot allows researchers access to thousands of federal and non-federal funding opportunities from around the globe for researchers in any phase of their academic career. Pivot also includes grants that support academic programs, research, and training on any topic, available to individuals and groups alike, and requires a UO email address to access the database. To request customized training on using Pivot, available to individuals and groups alike, contact Research Development Services.

Limited/Internally Coordinated Submissions

The library of UF grants announced below contains a single listing of current and upcoming funding opportunities for researchers in any phase of their academic career. Pivot allows researchers access to thousands of federal and non-federal funding opportunities from around the globe for researchers in any phase of their academic career. Pivot also includes grants that support academic programs, research, and training on any topic, available to individuals and groups alike, and requires a UO email address to access the database. To request customized training on using Pivot, available to individuals and groups alike, contact Research Development Services.

Featured External Opportunities

Graduate and Postdoctoral Grants

Announcements and solicitations that RDS staff identify as broadly interesting to the UO research community.

All TTF faculty, NTTF research faculty, and graduate students at the University of Oregon automatically receive this email.

Are you trying to secure funding for your research? We can help.

We encourage researchers to contact our staff members to discuss research interests, or goals, strategies and potential funding sources.

Are you trying to secure funding for your research? We can help.

We encourage researchers to contact any of our staff members to discuss research interests, or goals, strategies and potential funding sources.

All other recipients have opted in to receive the Funding Opportunities newsletter. This newsletter provides a sample of all funding opportunities available.

We will show you how to identify funding opportunities, save searches, and using the database, which requires a UO email address. To request customized training on using Pivot, available to individuals and groups alike, contact Research Development Services.
