Announcements

Diversity, Equity, and Inclusion Opportunities

The Office of the Vice President for Research and Innovation offers a variety of resources and opportunities to support diversity, equity, and inclusion efforts on campus. These include the EEOC Compliance Training Program, which provides training on the requirements of the Equal Employment Opportunity Act, and the Murdock Scientific Instrumentation Program (SIP), which supports research in the sciences, technology, math, and data. For more information, please visit the Office of the Vice President for Research and Innovation website or contact rds@uoregon.edu to schedule an appointment to learn more about RDS services.

Limited/Externally Coordinated Submissions

Diversity, Equity, and Inclusion Opportunities

The Graduate and Postdoctoral Grants (GPG) is a funding opportunities database of available external funding opportunities from the sciences, technology, arts, and the humanities. The GPG includes information on grant programs, deadlines, and eligibility criteria. For more information, please visit the GPG website or contact the Office of the Vice President for Research and Innovation.

Featured External Opportunities

American Council of Learned Societies

The American Council of Learned Societies offers a variety of fellowship and grant programs to support research and scholarly activity. For more information, please visit the ACLS website or contact the Office of the Vice President for Research and Innovation.

Honor and Awards

The University of Oregon offers a variety of honors and awards programs to recognize excellence in scholarly activity and creative achievement. For more information, please visit the Office of the Vice President for Research and Innovation website or contact rds@uoregon.edu to schedule an appointment to learn more about RDS services.

Featured Pivot Searches

Our Pivot database includes a variety of funding opportunities from various funding agencies and organizations. We also offer training programs and STEM support to help researchers identify, apply for, and prioritize funding opportunities. For more information, please visit the Pivot website or contact the Office of the Vice President for Research and Innovation.

Featured Pivot Searches

Genomics of ASD: Pathways to Biological Convergence and Genetic Therapies

The Simons Foundation Autism Research Initiative offers a variety of funding opportunities to support research on the genetic, molecular, and cellular mechanisms underlying autism spectrum disorders. For more information, please visit the Simons Foundation website or contact the Office of the Vice President for Research and Innovation.

Research Development Services (RDS)

Eugene, Oregon 97401 USA

541-346-8308   |   rds@uoregon.edu
