## Announcements

### Funding Opportunities for COVID-19 Research

The Office of the Vice President for Research and Innovation has a research UO [COVID-19 FAQ page](#) with excellent resources regarding research, including specialized funding opportunities related to COVID-19.

### NSF Major Research Instrumentation

The [Major Research Instrumentation program](#) provides an excellent opportunity to purchase equipment that can support the research of multiple faculty and is especially well-suited to modernize or expand equipment in UO's research core facilities. The MRI is a limited submission opportunity - if you are interested in applying, please submit an [internal pre-proposal](#) by **Wednesday, October 7, 2020**. If you are proposing equipment for a research core facility, please work closely with the Research Core Facility director in developing your proposal. If you have any questions or would like more information about this program, please contact [Research Development Services](#).

### Russell Sage Foundation Focuses on COVID-19 and Systemic Racial Inequality/Mass Protests

The [Russell Sage Foundation](#) supports research with the potential to improve social and living conditions in the U.S. The foundation is currently seeking Letters of Inquiry to any of its core programs that address: (1) research on the COVID-19 pandemic and the resulting reception in the U.S., and (2) research focused on systemic racial inequality and/or the recent mass protests in the U.S. The foundation has also resumed its regular granting programs including the Future of Work; Immigration and Immigrant Integration; Race, Ethnicity, Immigration, and Social, Political and Economic Inequality portfolios. **Letters of Inquiry are due on November 11, 2020.** *If you are interested in applying, please contact [Foundation Relations](#).*

### Write Winning Grants Seminar

Oregon Health & Science University is hosting the virtual [Write Winning Grants Seminar](#) by Dr. John Robertson on October 8-9, 2020. This seminar addresses the practical and conceptual aspects important to the proposal writing process and is appropriate for faculty, postdoctoral researchers, and students planning to write a research grant in the next two years. While targeted to grants from the NIH, the principles learned are appropriate for applicants to other agencies (e.g., NSF, USDA). The cost of the program is \$95 and prior registration is required.
