Funding Opportunities for COVID-19 Research

The Office of the Vice President for Research and Innovation has a research [UO COVID-19 FAQ page](#) with excellent resources regarding research, including specialized funding opportunities related to COVID-19.

Howard Hughes Medical Institute: Science Education Alliance (SEA)

SEA currently is offering faculty members at all 2-year and 4-year colleges and universities the opportunity to join two national collaborative research projects, the Phage Hunters Advancing Genomic and Evolutionary Science (PHAGES) project and the Gene-function Exploration by a Network of Emerging Scientists (GENES) project. Each project is designed to be embedded in undergraduate science curricula as course-based research, and faculty members receive HHMI-sponsored training and year-round support to implement each project. See the [program](#) page for more information.
